### **Reasons for Allowance**

The following is an examiner's statement of reasons for allowance:

Independent claims 1 and 12 are allowable over the prior art of record. Claims 2-11 depend from claim 1, therefore, are allowed.

Independent claims 1 and 4 recite the limitations of :determining if the output pixel is positioned on one of the diagonal lines and is closer to the center of the input mask than to the closest input pixel in the second further direction; assigning a foreground color to the output pixel solely when the color associated with the adjacent input pixel in the second further direction and the color associated with closest input pixel are both of the foreground color. The combination of these features as cited in the claims in combination with the other limitations of the claims, are neither disclosed nor suggested by the prior art of record.

The closest references of US 5953464 to Harrington discloses a system scaling color character with low-cost buffer. However, he does not teach the limitations of cited above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
